Design + Development Services

At LionDev we provide professional web design
and development services for businesses in Texas.

 liondev.io

Design

- ➔ **BESPOKE WEBSITE DESIGN** - Solutions tailored to your brand identity, business goals, and target audience preferences.
- ➔ **RESPONSIVE DESIGNS** - Ensured optimal viewing experiences across desktops, tablets, smartphones, and emerging devices.
- ➔ **UI DESIGN** - Visually striking user interfaces with intuitive navigation, cohesive visual elements, and engaging interactive components.
- ➔ **UX DESIGN & RESEARCH** - Comprehensive user experience strategy based on audience analysis, behavior mapping, and usability testing for maximum engagement.
- ➔ **BRAND IDENTITY DEVELOPMENT** - Cohesive visual language including logo design, typography selection, color palette creation, and brand guidelines documentation.
- ➔ **MOBILE APP DESIGN** - Native and cross-platform application interfaces optimized for iOS and Android with platform-specific design patterns.
- ➔ **E-COMMERCE SOLUTIONS** - Conversion-optimized online store designs featuring product showcases, streamlined checkout processes, and trust-building elements.
- ➔ **VISUAL CONTENT CREATION** - Custom illustrations, infographics, icons, and photography direction complementing your overall design strategy and marketing materials.

Development

- ➔ **CUSTOM DEVELOPMENT** - We build fast, SEO-friendly web applications with scalable backend solutions (Node.js, Express, PHP/Laravel, Java/Spring Boot) and modern frontends (React, Next.js, Angular) that handle your data securely and efficiently across SQL and NoSQL databases. All our frontend development follows the best SEO practices.
- ➔ **ECOMMERCE SOLUTIONS** - We develop and integrate online stores on WooCommerce and Shopify with payment systems, shipping providers, and inventory tools for seamless operations.
- ➔ **CMS DEVELOPMENT** - Our team builds flexible Webflow and WordPress websites with custom themes, headless solutions, and functionality to match your exact needs.
- ➔ **MOBILE APP DEVELOPMENT** - We create native and cross-platform apps for iOS and Android using React Native, Flutter, Swift, and Kotlin. Our mobile solutions include offline functionality, push notifications, location services, and intuitive interfaces that work perfectly across all screen sizes and device types.
- ➔ **MULTILINGUAL WEBSITE DEVELOPMENT** - We build websites that speak your customers' languages, helping you connect with both local and people around the world and grow your business globally.

Hosting + Maintenance

- ➔ **HOSTING** - We provide fast, secure hosting for all website platforms with regular backups and expert support.
- ➔ **MAINTENANCE** - We handle updates, security patches, and technical fixes to keep your website running smoothly and securely.
- ➔ **PERFORMANCE OPTIMIZATION** - We speed up your website loading times and improve overall performance for better user experience and search rankings.
- ➔ **SECURITY MONITORING** - We protect your website against threats with proactive security measures, regular scans, and malware removal.
- ➔ **CONTENT UPDATES** - We help keep your website fresh with regular content updates, new product listings, and seasonal promotions.

LionDev

Our Process

Initial Consultation: We discuss your business goals, target audience, and website requirements.

Planning: We create a detailed project plan including sitemap, features list, and timeline.

Design: We develop wireframes and visual designs for your approval.

Development: We build your website with clean and well documented code.

Content Integration: We help organize and place your content effectively.

Testing: We thoroughly test functionality, compatibility, and performance.

Launch: We deploy your website and ensure everything works correctly.

Ongoing Support: We provide technical support and maintenance as needed.

LionDev

Industry Specializations

We have experience creating websites for various industries in Texas, with specialized knowledge in:

Luxury & Lifestyle

We build websites that showcase premium products and services with elegant designs, high-quality imagery, and sophisticated user experiences.

Based on your specific needs and requirements, our luxury websites can include options such as:

- High-end visual presentation elements
- VIP client portals
- Appointment booking systems
- Brand storytelling sections
- Integration with social media platforms popular among luxury consumers

Each project is customized to match your exact business requirements, and you select only the features that make sense for your brand.

Business & Corporate

For professional services and corporate entities, we build websites that show your professionalism and make client communication simple.

Our business & corporate websites can include any of these features:

- Company profiles
- Team member pages
- Service descriptions
- Knowledge bases
- Investor information sections
- Client portals
- Contact forms with routing to specific departments

We know each client has different needs. We work with you to pick only the elements that help your business goals, building exactly what works for your specific business.

LionDev

Real Estate & Construction

For real estate and construction firms, we build websites that show off your properties and projects with plenty of photos while making it easy for clients to get information.

Our real estate & construction websites can include any of these features based on what you need:

- Interactive property listings
- Mortgage calculators
- Property search tools
- Property comparison tools
- Virtual tours
- Agent profiles and contact info
- Floor plan displays
- Project portfolio galleries

We understand that real estate and construction businesses have unique requirements. We'll work with you to build a website that matches your brand, fits your budget, and helps you connect with buyers, sellers, or construction clients. Your website will be tailored to highlight what makes your properties or construction services stand out.

LionDev

Transport & Logistics

For transportation and logistics companies, we build websites that display your services and make it easy for customers to work with you throughout the supply chain.

Our transport & logistics websites can include any of these features based on what you need:

- Rate calculators
- Client account portals
- Service area maps
- Document management systems
- Online booking systems
- Fleet management interfaces

Transportation and logistics businesses have specific needs. Whether you run a small courier service or manage a large trucking fleet, your website should reflect your operations. We'll build a website that showcases your reliability and helps you connect with the right customers for your business.

Travel & Hospitality

For travel and hospitality businesses, we build websites that show off your destinations and properties while making bookings simple for your guests. Our travel & hospitality websites can include any of these features based on what you need:

- Booking systems for rooms and events
- Customer review integration
- Room and service galleries
- Loyalty program portals
- Virtual tours
- Local attraction guides
- Restaurant menu displays

Travel and hospitality businesses come in many forms - from small bed and breakfasts to large hotels, from tour operators to resort destinations. We'll create a website that fits your specific business, shows what makes your location special, and turns website visitors into actual guests.

Manufacturing & Industry

For manufacturing and industrial companies, we build websites that present your production capabilities and offer technical resources for your B2B clients. Our manufacturing websites can include any of these features based on what you need:

- Product catalogs with detailed specifications
- Custom quotation systems
- Manufacturing process information
- Technical documentation libraries
- Quality certification pages
- Supply chain tools
- B2B portals for distributors and partners
- Industry compliance information

Manufacturing businesses have unique website needs that differ from consumer-focused sites. We'll build a website that fits your specific industry, speaks to your professional buyers, and gives your business partners the technical information they need.

E-Commerce

Our conversion-optimized storefronts combine attractive product presentations with secure payment systems that build consumer trust and drive sales.

- User-friendly product catalogs
- Customer account management
- Advanced search and filtering
- Wishlist functionality
- Product recommendations
- Secure checkout processes
- Mobile shopping optimization
- Multiple payment method integration
- Inventory management

LionDev

Client Testimonials

“

Liondev has handled all our web development needs, from building custom plugins to creating our entire online presence. They're patient, thorough, and work until everything is perfect. Our site's performance and user experience have improved dramatically.

“

Great developers - I've used them twice and will again. They respond quickly, answer all questions clearly, and create exactly what we need.

“

LionDev saved our website when we had serious technical problems. They worked urgently to minimize downtime and went beyond expectations by improving our site's security. Simply brilliant work!
